NEW EXCELLENCE SERIES DETECTORS WITH NOTIFICATION

All-inclusive solution for a
variety of applications

EN54-APPROVED VARIANTS WITH INTEGRATED ISOLATION, SOUNDER AND VAD

This range eliminates the
need for separate sounders
and VADs, saving both
installation time and costs

INSTALLATION FEATURES

- Easy alignment of detector and base
- Secure connection of detector with base with multiple contact locations
- DUAL Status indication always visible (360° visibility)
- Clear (and subtle) device type marking on every device
- Easy labelling, tag matching to base
- Detector lock, preventing unauthorised removal
- QR code, for quick information retrieval
- Easy traceability with laser marking
- Easy addressing and verification

THE RANGE

TRAFFIC WHITE

- Dual optical with smoke discrimination & sounder
- Dual optical with smoke discrimination & sounder/VAD
- Multisensor, dual optical with smoke discrimination, heat (class-A, static or rate-of-rise) & sounder
- Multisensor, dual optical with smoke discrimination, heat (class-A, static or rate-of-rise) & sounder/VAD

GRAPHITE BLACK

- Multisensor, dual optical with smoke discrimination, heat (class-A static or rate-of-rise) & sounder/VAD

The image features a dark, monochromatic background with silhouettes of several office workers in various poses: one sitting at a desk, one standing with a laptop, one standing with a hand on their hip, one standing with hands on hips, one standing with arms crossed, and one standing in profile. A glowing red line, resembling a heartbeat or ECG, runs horizontally across the middle of the image, with a thin white line above it. The scene is set in a modern office with vertical window panes and desks with computers. The silhouettes are reflected on a glossy surface below.

**A FULL SPECTRUM
OF INSTALLATION POSSIBILITIES**

**CLEAR & STYLISH INDICATION,
ADDED SAFETY & EASIER MAINTENANCE**

CONVENIENCE

AESTHETICS & SAFETY

**Address label location
for easy labelling / matching to the base label**

**Hidden sounder
& thermistors**

THE USER INTERFACE

Commonality for all variants

NOTIFICATION LEDs

DUAL TRI-COLOUR NOTIFICATION USING LEDs FOR CLEAR VISIBILITY

Flashing GREEN		Communications (optional)
Steady GREEN		Location / Power up
Flashing YELLOW		Fault
Constant YELLOW		Isolated
Flashing RED		Pre-alarm
Constant RED		Alarm

NOTIFICATION OPTIONS

AUDIBLE

- 32 freely configurable tones
- 4 freely configurable SPL levels from 51 to 86 dBA

VISUAL

- 3 freely configurable power levels:
- Low (O-2.5-7)
 - Standard (C-3-7.5)
 - High (C-3-9)
