

DB951

950 Series Base For IU950/IU955 Isolators

General

The DB951 is a base required for the installation of the IU950 and IU955 intelligent isolators. This base is unique and designed to only accept these 950 series isolators. This ensures that 900 series detectors cannot be fitted to isolator bases in error.

Installation

The DB951 isolator base has only three terminals and an earth connection, allowing for quick and easy installation in a 2-wire detector loop.

Detailjer

- Electronic free base
- Aesthetic design
- EN54, BOSEC, VdS, CNBOP approved
