

TVK-600

TruVision RS485/IP tastatur, 4-aksel joystick, 12VDC

Overview

The TVK-600 keypad has been designed to be used with the line of TruVision NVRs, DVRs, PTZ cameras, encoders and decoders. A TVK-600 lets you easily control the monitor outputs of a recorder and a decoder, allows precise PTZ control, and gives you full control of every recorder's user interface using only the keypad.

Full featured

The TVK-600 contains all features to control a TruVision device efficiently.

The keypad can communicate via IP or RS485 with supported recorders and cameras.

The configuration of the keypad is done via a web browser.

Different user modes can be selected via the on-screen menu of the LCD display.

The keypad supports up to 1000 devices via keyboard mode.

Users can navigate through the menu of a recorder and control PTZ cameras via the 4-axis joystick.

Why TVK-600?

The TVK-600 lets you control your video system via one user interface without using a PC.

Applications

The TVK-600 is ideal for guard rooms and monitoring centers.

TVK-600

TruVision RS485/IP tastatur, 4-aksel joystick, 12VDC

Tekniske specifikationer

Generelt

Tastatur / controller type Analog / serial, IP

Kontrol

Joystick-type 4-akse

Knapper Numeric and functional

Brugergrænseflade

Skærmtype 128x64 pixel screen

Grænseflader

Forbindelsesgrænseflade Ethernet, RS-485

Elektrisk

Strømforsyningstype 12 VDC

Strømforsyningsværdi 12 V

Strømforbrug <= 4.5 W

Fysisk

Fysiske dimensioner 435 x 193 x 110 mm

Nettovægt 1 kg

Farve Sort

Miljø

Driftstemperatur -10 to +55°C

Relativ luftfugtighed 10 to 90%

Regulerende

Overholdelse CE, RoHS, WEEE
