# 1-21888-K074

## Flush samling point assembly - complete

### Description

The 1-21888-K074 is a flush capillary sampling point. It is supplied complete with a 27mm diameter t-union, to which the flexible sample pipe connects. The flexible sampling pipe has a diameter of 10mm and is 1m long. At the end of the flexible sampling pipe, the sampling point is connected which can be mounted to a false ceiling for example. This provides a aesthetically pleasing end result due to the flush nature of the sampling point.
