211

ARITECH [10 pack], Dx700 / Dx2000 Series replacement optical chambers

General

The 211 is a replacement optical chamber for Aritech 400, 500, 700 and 2000 series detectors. Easy replacement is supported by a detector design that allows a contaminated (dirty) chamber to be removed and replaced by a clean chamber without the need for special tools. As simple click-out, click-in mechanism makes replacement possible in a couple of seconds. The detector automatically re-calibrates the detection sensitivity on first start up.

Details

- Allows for easy field maintenance & cleaning of optical devices
- Easy to remove and replace
- Low cost alternative to detector replacement

ARITECH [10 pack], Dx700 / Dx2000 Series replacement optical chambers

Technical specifications

General

Compatibility	Aritech 400, 500, 700 and 2000 series residential and commercial smoke sensors, optical detectors & multi-sensors

Detection

Detection principle	Optical
Sensitivity	Automatic calibration
Field of view	360°
Coverage area	<80 m²

Physical

Colour	Black
Mounting type	Clip on
Material (body)	Plastic

Environmental

Vandal proof	No
Environment	Indoor

Regulatory

Compliancy	CE, REACH, RoHS 2

Compatible products

Category	Reference	Description
Detection device	DP2061N	
Detection device	DP2061N-ISOKIT	
Detection device	DP2061T	
Detection device	DP2061T-ISOKIT	
Detection device	DP721I	
Detection device	DP721R	
Detection device	DP721RTA	
Detection device	DP721T
