DP2CAP-ICT

ARITECH [10 pack], Dx700 / Dx2000 Series insect protection caps

General

The DP2CAP-ICT is an insect protection fire detector cap to be used on all 700 and 2000 series smoke detectors. It boasts a super fine insect screen preventing any small bug from getting into the detector, causing short circuits in electronics or creating false alarms.

The cap on the sensor may be replaced on site with no special tools.

Details

- Prevents false alams or detector damage from bugs
- Easy to install
- Low cost
