

# DC116

## Surface mount contact

### Industrial Surface Mount Contact

---

The DC116 series features a wider make distance and works better on steel without time-consuming installation of brackets. A wider break distance helps prevent false alarms caused by loose fitting doors.

### Applications

---

The contacts are used to protect openings such as metal entry/exit doors, overhead doors, roof hatches or hinged skylights.

### Details

---

- Rugged design for industrial applications
- Models for use on steel without time-consuming brackets
- Concealed terminals resist tampering and inadvertent shorting
- Easy clamping terminals speed installation
- Mounting screws included
