

AD111

Internal addressable device interface

Details

- 2/4 wire internal interface
- Two inputs to monitor alarm and tamper relay
- One output to trigger the LED
- If needed powered through auxiliary power supply
- Fit to EV125/425 & 500 series

AD111

Internal addressable device interface

Technical specifications

General

Accessory group	Motion sensors
Type	Module

Electrical

Operating voltage	12 / 24 VDC
Current consumption	330 µA +/-10% from bus

Physical

Physical dimensions	30 x 50 x 12 mm (W x H x D)
---------------------	-----------------------------

Environmental

Environment	Indoor
-------------	--------

Bus protocol

	Interlogix property
--	---------------------

External power supply

	9 to 13.8 VDC
--	---------------

Unit load for DGP

	1
--	---

Address range

	0 to 255
--	----------

Open collector current output

	100 microA max.
--	-----------------
