AirSense Stratos Standalone Command Module

Description

AirSense Stratos Command Module provides a single location display, control and interfacing option for systems of upto 127 detectors. Command Module allows global programming of all detector functions simultaneously.

The integral bargraph automatically displays the status of the detector with the highest alarm level to identify potential problem areas.

The PIN protected programmer enables global entry of all detector settings to significantly reduce commissioning time.

Typical Applications

- Data storage units
- Prison cells
- Plant rooms
- Air conditioning units
- Equipment racks
- Computer rooms
- Air duct protection
- Heritage property protection
- Critical equipment
- Anti-smoking enforcement
- Motor rooms

Options Available

- Addressable Protocol Interface Cards APIC™ available
- SenseNet compatible - up to 127 detectors per loop
- Remote Display units available
- Suitable for MatrixScan, a patented software system which provides virtual addressable location detection - e.g. 10 physical detectors would provide up to 45 unique addressable locations.

Détails

- RS485 communications built in as standard for networking and remote communications
- Network control of 127 detectors
- Built in Short Isolators for optimum reliability

AirSense Stratos Standalone Command Module

Spécifications techniques

Général

Indication d'état	LED and LCD
Interface utilisateur	Keypad

Électrique

Tension de fonctionnement	21.6 to 26.4 VDC
Consommation de courant	250 mA

Sortie

Quantité des sorties	5 - Pre-Alarm, Alarm, Alarm2, Aux Alarm (n/o) and Fault (n/c)
Type de sortie et classe	500 mA @ 30 V

Caractéristiques physiques

Physical dimensions	427 x 372 x 95 mm (W x H x D)
Poids net	5.2 kg
Colour	Crème
Mounting type	Fixation murale
Entrées de câble	6 x M20
Matériel (boîte)	Tôles d'acier

Environnement

Température de fonctionnement	-10 to +60°C (EN54-20)
Humidité relative	0 to 90% noncondensing
Environnement	Intérieur
Indice de protection	IP40
