AS700G3

Outdoor siren, plastic housing, NFA2P Grade 3

Product overview

The outdoor siren is a signaling device to alert others if an emergency arises. It is a very important addition to a security system as it ensures everyone on site knows about the alarm system activation.
This siren has coated electronics and IP44 rated for a variety of applications, especially in harsh environments.
Designed to comply against EN Grade 3 certification, the siren includes an enhanced protection against sabotage.
The battery and power supply are fully supervised.

As soon as an intrusion is detected, the outdoor siren triggers a powerful 105 dB sound signal.
Its sound and duration can be programmed and its battery has up to 60 hours autonomy.

Détails

- Battery circuit protection with resettable fuse
- Enhanced tamper protection
- Aritech elegant design
- Self test every 24 hours to check the integrity of the battery and its charging circuit
- Engineer mode (for commissioning and to inhibit sounder operation)

AS700G3

Outdoor siren, plastic housing, NFA2P Grade 3

Spécifications techniques

Général

Groupe d'accessoires	Sirène
Type	Sirène extérieure

Spécifications du flash

Consommation de courant	10 mA @ 13.8 V (quiescent)

Électrique

Type de bloc d’alimentation	9 VAC
Tension de fonctionnement	9 to 15 V
Consommation de courant	100 mA at 9 to 15 VDC (typical)

Caractéristiques physiques

Dimensions physiques	203 x 260 x 81 mm
Poids net	1130 g
Couleur	Blanc
Matériel	ABS

Environnement

Protégé contre le vandalisme	Oui
Température de fonctionnement	-10 to 55°C
Température de stockage	-10 to 55°C
Humidité relative	<95% noncondensing
Environnement	EN50130-5 ; Classe II - Intérieur (général)
Indice de protection	IP44

Régulateur

Conformité	CE
Certification	EN50131 Grade 3
Normes	NFA2P Grade 3

General

Sounder output	>101 dBA at 1m
