MLC2-DDM

Multimode SFP module

Product overview

The Westermo range of Small Form-factor Pluggable (SFP) transceivers covers versions suitable for 10/100 Mbit/s applications. LC connectors are used as standard due their small size.

These transceivers are verified to meet the Westermo environmental specification and can operate in a range of different Westermo products in harsh industrial applications. The transceivers are coded to allow confirmation that certified versions have been installed.

Détails

- Type mode: Multi
- Link speed: 100 Mbits/s
- Ind. range: 2 km
- Power budget: 11 dB
- TX/RX wave lengh: 1310/1310 nm
- LC connector
