

TVK-400-USB

TruVision 3 axis variable speed video surveillance USB keypad

Overview

The TruVision TVK-400-USB keypad works with the advanced Carrier software applications like UltraView VSC and TruVision Navigator 7.0 VMS software.

The keypad allows you to manipulate the software and control a PTZ. For TruVision Navigator: a mouse still needs to be used together with the keypad. For a full overview of the supported functionality in TruVision Navigator, please see the latest manual.

Versatility

The TVK-400-USB can be used with different Carrier Fire & Security video software applications like Ultraview VSC 4.4 and TruVision Navigator 7.0 or higher.

The keypad allows control over camera view in client applications as well as PTZ and playback control.

There is advanced 3 axes Hall effect Joystick to control PTZ cameras and Jog/Shuttle to navigate through the recorded video.

Détails

- 3 axes joystick for PTZ control
- Jog/shuttle dial
- USB 1.1 HID compliant
- Easy to use and operate
- Functions determined by controlled application
