

VM602P

Kit d'encastrement pour VV600S3PLUS / VV602S3PLUS / VV700NF.

Recess mounting

The VM602P is a recess mounting box to be used when the seismic detector is mounted in concrete walls under construction. For recess mounting in floors, you should use the floor mounting box VM611P with extra strong lid.

VM602P

Kit d'encastrement pour VV600S3PLUS / VV602S3PLUS / VV700NF.
