

LC1502

Modulo di espansione per 2 loops.

General

The LC1502 is a loop extension board for 1200/2000 series fire panels. It allows for 2 class-A or 4 class-B loops to be added to the fire panel, and supports up to 128 addressable loop devices per loop.

Protocol Support

The LC1502 supports the Aritech 2000 series and 900 series addressable protocols.

Dettagli

- 2 loop in classe "A" o 4 loop in classe "B"
- Fino a 128 apparati per loop (dipendentemente dal protocollo)
- Supporta più protocolli
- Nessun indirizzo hardware richiesto

LC1502

Modulo di espansione per 2 loops.

Specifiche tecniche

Elettrico

Consumo attuale	+ 150 mA (252 detectors) Quiescent @ 24 VDC (Fully equipped loop)
