

TVN-1216-6T

TruVision NVR 12, 16 channels, 160 Mbps, 6 TB

Reasons to choose TVN 12

The TVN 12 recorder series offers a full-featured, compact recording solution for IP cameras with a maximum resolution of 8 MP(4K).

The TVN-1216 is a cost-effective, easy-to-use recorder capable of recording up to sixteen IP cameras.

Easy to use

A setup wizard with auto detection of IP cameras guarantees a fast installation of the recorder.

The TVN 12 can be added to the internet without port forwarding or VPN, thanks to the built-in UltraSync connectivity. Showing remote video on mobile applications was never easier.

In combination with dedicated TruVision cameras that can support people and/or vehicle detection, the TVN 12 recorder series can find relevant events faster and without efforts.

Applications

The TVN 12 is the ideal recording solution for small commercial and residential applications, where ease of use and fast deployment time are important.
