

DB860

Base Standard - Apollo Série 60/65 (45681-200)

General

The 650 Series conventional detectors are designed for the highest effectiveness utilising the latest technology. A wide operating voltage (9 to 33 VDC) allows them to be used on any security system.

Standard base

The base enables detectors to be plugged in without any need for force - particularly useful when fitting to suspended ceilings. The base has a "one way only" fit and are lockable. They contain no electronic parts that could be damaged during installation. The detectors are polarity insensitive and bases are easy to wire with an earth connector.

Detalhes

- Polarity insensitive
- Common base
- Elegant slim-line design
- May be used on security systems

Base Standard - Apollo Série 60/65 (45681-200)

Especificações técnicas

Geral

Compatibilidade	Apollo series 60 and 65 conventional detectors
Conetividade	2-wire conventional zone

Físico

Dimensões físicas	100 x 8 mm (Ø x H)
Cor	Branco
Tipo de montagem	Montagem de teto
Entradas para cabos	1

Ambiental

À prova de vandalismo	Não
Ambiente	Interior

Regulamentação

Conformidade	CE, REACH, RoHS 3, WEEE
Certificação	CE
