TECHNICAL BULLETIN

Kidde Airsense would like to take the opportunity to present its training calendar for 2018

We are pleased to announce the inclusion of the following **NEW**!! Training courses:

- **Aspirating Smoke Detection (ASD) system design**
- **Alarmline II Linear Heat Detection (LHD) Technical training**

Training courses are held at our dedicated training facilities in Milton Keynes.

Each of our training courses is a full day running approximately 09:00-16:30 combining technical presentations and practical skill sessions.

On successful completion of the training, attendees will be awarded a certificate which will be valid for 3 years from the course date.

Training courses will be limited to 10 people maximum, so please check availability as places will be issued on a first come first served basis.

To make a booking please contact :
Debbie.Norfolk@fs.utc.com Tel: +44 (0) 1908 281981

Training is provided free of charge for those who attend the allocated training dates.

For bespoke training courses please contact Darren Holland
darren.holland@kiddeuk.co.uk +44(0)1908 286418 to discuss your specific requirements.

Course details and requirements:

New!! Aspirating System Design

Aspirating System Design is critical to the correct operation and performance of the installed system. This course covers the fundamentals of Aspirating System Design in relation to the Stratos Aspirating Smoke Detection Systems and is aimed at persons responsible for carrying out System proposals, Pipework designs, Site Surveys etc.

Course content:
Guidance on carrying out a site survey
Typical applications and the advantage of aspirating detection
Design standards
Pipework design principals
Specialist application designs
PipeCAD design software

Course requirement:
Attendees MUST have already completed the BS5839 Unit 1: Fire Detection Design course.
Attendees MUST bring a laptop for the practical aspect of this training.

Course length:
1 day (09:00 – 16:30)
